

SHARPE MEDICAL CONSULTING

Healthcare + Technology: It's in our DNA

Consulting Packages

Our team of clinicians has hundreds of years of combined experience in settings such as the DoD, VA, civilian healthcare and humanitarian assistance. We have physicians, physician assistants, nurses and medical technicians with expertise in a broad range of clinical areas. This vast clinical experience is making a difference optimizing processes and enhancing usability at the point of care. Our solutions have been proven to increase productivity, increase quality of care and improve compliance with regulatory measures. See how our experts can help your organization today.

Consulting Packages range from low to high involvement opportunities for your company starting at \$25k
